

W O R K S H O P Q

Come, join us on our journey to upcycle every bit of waste,
even one that is generated by us.

WorkshopQ is a eco-design studio inspired by functionality, innovation, and fuelled by a deep desire to be green. We work with local artisans to salvage industrial waste and turn them into purposeful art installations, sculptures and meticulously designed home décor products.

We started out as a product design studio and have now evolved into a company with a mission to upcycle as much as we can and present it in the form of Upcycled Art.

Reuse.
Upcycle.
Create.
